

Erasmus+ Programme A.Y.2017/2018

The Erasmus+ Programme

Erasmus+ is the European Union programme in education, training, youth and sport for 2014-2020 (Regulation (EU) No 1288/2013 of the European Parliament and of the Council of 11 December 2013).

The Erasmus+ Programme is designed to support Programme Countries' efforts to efficiently use the potential of Europe's talent and social assets in a lifelong learning perspective, linking support to formal, non-formal and informal learning throughout the education, training and youth fields. The Programme also enhances the opportunities for cooperation and mobility with Partner Countries, notably in the fields of higher education and youth.

The aim of Humanitas University, in its process of internationalisation, is to focus on the Erasmus+ Key Action 1: supporting the mobility of students by financially contributing to study or traineeships abroad. Key Action 1 provides that students of medicine and surgery who are already studying in an international setting can further expand their interest in becoming active members of the global community by going abroad, thereby sharing their values, attitudes and abilities in a meaningful way.
