

# WHERE ARE YOU AT WITH YOUR ITALIAN?

Learn Italian to get the most  
out of your living and  
learning experience in Italy

**Are you a beginner?**

**Want to get ahead?**

Check out the on-demand starter course available **here**.

**Want to know your level?**

**Want to be informed?**

Come and join our first Italian meeting during the induction weeks and check out your level for the 40-hour free intensive courses.

Our courses will give you both the linguistic tools to communicate in Italian, and an understanding of the vibrant Italian culture.

**What happens after  
the induction weeks?  
Do we provide other  
Italian courses?**

Yes, there are structured courses available each semester from the 1<sup>st</sup> to the 2<sup>nd</sup> year.

With these courses you will get elective credits.

In your 3<sup>rd</sup> year you'll have the chance to attend Italian tutorials in preparation for your clinical practice in the hospital.

## **When will you need Italian to get the best out of your clinical practice?**

It all starts in Year 3, Semester 1 and you will need to interact with real patients and healthcare teams.

## **Can I leave learning Italian until Year 3?**

**ABSOLUTELY NOT!**

Your academic commitment and your busy semester schedule will leave little time for you to dedicate to Italian and reach an adequate level for your practical training. This is why your 1<sup>st</sup> and 2<sup>nd</sup> year represent foundation years, not just for your medical preparation but also for learning Italian.

# SO DON'T LEAVE IT TOO LATE!

Follow our Italian lessons, get your Italian up to scratch in time, and don't miss out on our language portfolio, and badge system for medical Italian.
